

## **Freelance / Contract CAD Role Submission Template**

If you would like CADagency to promote your freelance or contract CAD vacancy to our 6,500+ followers across Facebook and LinkedIn, please send a short job description by email to:

**office@cadagency.co.uk**

Use the subject line: Freelance / Contract CAD Role

Your post should be clear and short so it reads well on social media. Most posts receive around 10 applicants within the first 24 hours.

### **Include the following in your email:**

- Job Title
- Company Name
- Location (or mention if remote)
- Brief company and product overview
- Software used
- Length of contract / duration
- Hourly rate or day rate

## **Example Posts**

### **Freelance CAD Drawing Template Designer**

New Branded Template for Technical Fire Door & Joinery Drawings

Forza Doors is the UK's leading manufacturer of timber fire doors & associated joinery.

We are looking for a freelance CAD designer to support us with creating a new branded template for all of our drawings for use in AutoCAD and Inventor - which can be seamlessly exported as a PDF containing our drawings

Deadline: by Friday 21st March

Duration: one-off project, estimate 2-4 hours work

Pay: 15-20 per hour

If you are interested in helping out with this project, please contact me with your best quote and turnaround at: emma@forza-doors.com

### **Freelance CAD Designer**

Nicholas Kirkwood Ltd is a footwear design company producing sustainable sneakers. Due to increased workloads, we are looking to hire with an immediate start someone who is proficient in Grasshopper, Rhino, or equivalent 3D modelling software.

The role will involve 3D modelling of footwear prototypes for 3D printing. Daily tasks will include producing 3D models, modifying models, and preparing them for 3D printing. Experience in parametric design to modify models and familiarity with Vizcom AI are preferable. Additional experience in Adobe Photoshop/Illustrator would be an added benefit.

The role is offered on a contract basis for 36 months initially. We will require the person to work on-site in London, 45 days a week. A brief will be provided, but the person should be able to work under their own initiative.

If you are interested, then please contact: Joel Hardingham
